

## **The First OSH hands-on training center!**

**KOSHA presents the 1<sup>st</sup> Certificate of Recognition for Qualified OSH Training Center to Ulsan Safety Experience Center**

- Ulsan Safety Experience Center, the very first of its kind in Korea, opens providing OSH training with hands-on activities.
- KOSHA provided the first Certificate of Recognition for Qualified OSH Training Center to the Ulsan Safety Experience Center managed by Ulsan Metropolitan City Fire Department on February 19, 2019.
  - Last year, KOSHA adopted a recognition system of OSH training center for the purpose of occupational accident prevention by giving the general public OSH training through qualified educational centers.
    - For the recognition, KOSHA review management plan; condition of facility, manpower, and equipment; convenience of use of a training center.
    - Application for the certificate is available through the local and area offices of KOSHA nationwide.
- President Doo Yong, Park of KOSHA mentioned “KOSHA will actively find out excellent education centers like the Ulsan Safety Experience Center to create opportunities with which workers learn about OSH.”
  - “KOSHA will endeavor to create safe workplace by spreading recognition that safety is the basic right for all.” he added.
