09_ Occupational accidents that threaten Korean Dream

As more and more migrant workers are finding themselves in Korea with 'Korean Dream', some of them are suffering from illnesses or even dying due to occupational accidents, failing to go back to their home country. This letter would share prevention measures for the migrant workers who are usually exposed to risk of accidents without protection.

10_ Supports to prevent migrant workers' accidents

KOSHA has been working hard to prevent migrant workers' accidents through: developing and disseminating OSH media content and training as well as giving technological support and consulting. The agency also cooperates with related organizations to train migrant workers. In that sense, KOSHA shares some information on its major projects, a series of media content and useful websites for preventing migrant workers' accidents.
